Celebrations – Mrs. Riedl

Thank you for supporting Veterans Day Assemblies/events, the canned food drive, and the Fall Festival!

Math and Science Learning Night is December 14th – flyers went home today, RSVP for food

Digital recording piece? Children not to be captured on video – creates a problem.

Discussion related to math/science learning night

Synethia Brown – Kindergartners worked with fifth grade to understand pushes and pulls in science. They were super excited to make catapults with the fifth graders and got to take them home. We are looking forward to science night!

Stephanie Sanalila – Is there a Pre-K classroom available for watching children if we can't record the math learning?

Mrs. Riedl – We can explore for future events but probably cannot pull it off for December.

Synethia Brown – Can we use high-schoolers to help with children for volunteer hours?

Debra Pierre – Are the students involved in the learning or will teachers be leading?

Mrs. Riedl – Parents and students will be involved in math learning. Science activities will be hands-on, students will be students. ORFF and Choir will kick off the evening, discussion of map and schedule.

PTA is subsidizing lovely Chik-fil-A dinners for \$2!
