Riedl's Roundup

FSA TESTING

Our 4th and 5th grade students will take the paper-based Florida Standards Assessments (FSA) ELA Writing test on Tuesday, March 1. **No visitors will be allowed in the building on that day.** If you or your student would like to gain familiarity with the item types and response formats your student will see on the FSA assessments, sample test questions and answer keys are available at <http://www.fsassessments.org/resources/?section=4-studentsa-paper-based>. For information regarding test session length for all Spring 2016 FSA assessments, please visit the FSA Portal at www.FSAssessments.org, click on the **Students and Parents** tab, select **Student and Parent Resources**, select the **Spring 2016 FSA ELA and Mathematics** folder, and then select *Spring 2016 Testing Times*. Please review the following policies with your student before testing:

Electronic Devices—Students are not permitted to have any electronic devices, including but not limited to cell phones and smartphones, at any time during testing OR during breaks (e.g., restroom), **even if they are turned off or students do not use them.** If your student is found with an electronic device, his or her test will be invalidated. The best practice is for students to leave devices at home on the day of testing.

Testing Rules Acknowledgment—All FSA tests include a Testing Rules Acknowledgment printed on the Writing planning sheet that reads, "I understand the testing rules that were just read to me. If I do not follow these rules, my test score may be invalidated." Prior to testing, test administrators read the rules to students, and students acknowledge that they understand the testing rules by signing below the statement on their planning sheet or in their test and answer book.

Discussing Test Content after Testing—The last portion of the testing rules read to students before they sign below the Testing Rules Acknowledgment states, "After the test, you may not reveal details about the passages or items to anyone. This includes any type of electronic communication, such as texting, emailing, or posting online, for example, on websites like Facebook, Twitter, or Instagram." Please make sure your student understands that "discussing" test content includes any kind of electronic communication, such as texting, emailing, or posting to blogs or social media websites.

Test Invalidations—Students are responsible for working on their own during the test and for protecting their answers from being seen by others. If students are caught cheating during testing, their tests will be invalidated. FDOE employs a test security company, Caveon Test Security, to analyze student test results to detect unusually similar answer patterns. Student results within a school that are found to have extremely similar answer patterns will be invalidated.

Leaving School—If your student begins a test session and leaves school before completing it (an appointment, illness, etc.), he or she WILL NOT be allowed to complete that test session. If your student does not feel well on the day of testing, it may be best for him or her to wait and be tested on a make-up day. [Please remember not to schedule appointments on testing days.](#)

Thank you for supporting your student and encouraging him or her to do his or her best during this test administration.
